Mr. Guofu Ye, Founder, Chairman, and Chief Executive Officer of MINISO, commented, "MINISO Group closed fiscal year 2021 with a solid fourth quarter. Despite the rapid spread of the Delta variant triggering a new round of pandemic in Guangdong province and some overseas markets, we managed to add 162 MINISO stores and 24 TOP TOY stores to our global store network during this quarter. In fiscal year 2021, the MINISO brand added 527 stores worldwide, we successfully accomplished our IPO, announced our 'X' strategy, further illustrating our commitment to becoming a global leading new-retail platform and launched TOP TOY."

Mr. Ye continued, "In fiscal year 2022, we remain committed to the pursuit of our strategies in store network expansion, product innovation, omni-channel experience and new initiatives such as TOP TOY. We will also continue to closely monitor the development of the pandemic and adjust our business plan dynamically, continue to cooperate with overseas partners in various aspects, and help them with future development."

Mr. Saiyin Zhang, Chief Financial Officer and Executive Vice President of MINISO, commented, "We have experienced accelerating recoveries in both domestic operations and international operations in this quarter, as proved by the largest year-over-year growth in both top line and bottom line in recent eight quarters. We are also pleased to announce a cash dividend of about RMB300 million, our capital allocation strategy in the future will prioritize new growth opportunities, such as new strategic initiatives and new store expansion, and we will also remain committed to bringing return to shareholders through anticipated dividend payments."

"The latest resurgence of the pandemic from Nanjing in China has spread to several provinces and is still evolving. We currently estimate that our sales will continue to be pressured by the lingering effects of the pandemic in the short term, which will lead to reduced traffic or even the temporary closure of our stores. We will continue to focus on those elements of the business that are under our control, such as product innovation, inventory management, operating efficiency and omni-channel strategy to drive sales and protect margins." Mr. Zhang concluded.

Recent Developments

Impact of COVID-19

The COVID-19 pandemic continued to impact the Company's operations and results in June quarter. In China, sales growth was negatively impacted by the outbreak of the Delta variant in Guangdong province during the period from late May to early July. The Company estimates that its GMV loss for those influenced stores during this period was around RMB50 million. In overseas markets, 205 stores had not resumed operations as of June 30, 2021. The majority of those stores that resumed operations were half-opened or had operating hours reduced due to regional resurgences of COVID-19.

Dividend

MINISO's board of directors has approved a cash dividend in the amount of US\$0.156 per ADS, or US\$0.039 per Class A ordinary share, payable as of the close of business on September 9, 2021 to shareholders of record as of the close of business on August 31, 2021. The ex-dividend date will be August 30, 2021. The aggregate amount of cash dividends to be paid is approximately RMB300 million, which will be funded by surplus cash on the Company's balance sheet.

Unaudited Financial Results for the Fourth Quarter ended June 30, 2021

Revenue was RMB2,472.4 million (US\$382.9 million), representing an increase of 59.2% year over year and 10.9% quarter over quarter. The year-over-year increase was primarily driven by the growth of the Company's domestic operations and recovery of its international operations.

Revenue generated from the Company's domestic operations was RMB1,946.3 million (US\$301.4 million), increasing by 42.6% year over year. Revenue generated from domestic operations of the MINISO brand was RMB1,830.1 million (US\$283.4 million), increasing by 39.1% year over year, mainly driven by a year-over-year increase of 13.5% in average store count and a year-over-year growth of 22.6% in average revenue per store in China.

Revenue generated from the Company's international operations was RMB526.1 million (US\$81.5 million), increasing by 179.0% year

over year, reflecting the recovery of the Company's international operations from the same period of 2020.

Revenue per MINISO store, which is calculated by dividing the revenue of the MINISO brand by the average number of MINISO stores at the beginning and the end of the relevant period, was RMB504.7 thousand (US\$78.2 thousand) in June quarter, representing a year-over-year increase of 41.7% and a quarter-over-quarter increase of 6.5%.

Cost of sales was RMB1,833.3 million (US\$283.9 million), representing an increase of 56.2% year over year and an increase of 14.4% quarter over quarter.

Gross profit was RMB639.1 million (US\$99.0million), representing an increase of 68.4% year over year and an increase of 2.0% quarter over quarter.

Gross margin was 25.8%, compared to 24.4% in the same period of 2020 and 28.1% in the previous quarter. The year-over-year increase was primarily due to an increase in revenue contribution from the Company's international operations, which typically has a higher gross margin than the Company's domestic operations. The quarter-over-quarter decrease was mainly attributable to 1) increased promotion activities during the "6.18 Mid-Year Shopping Festival", and 2) inventory clearances in certain cities that aimed to tackle the negative impacts caused by reoccurrence of the pandemic in Guangdong.

Other income was RMB4.1million (US\$0.6 million), compared to RMB33.7 million in the same period of 2020 andRMB4.3 million in the previous quarter. The year-over-year change in other income was due to the receipt of a government grant in April 2020.

Selling and distribution expenses were RMB282.8 million (US\$43.8 million), representing an increase of 3.5% year over year and a decrease of 4.6% quarter over quarter. Excluding share-based compensation expenses, selling and distribution expenses were RMB263.8 million (US\$40.9 million), compared to RMB230.1 million in the same period of 2020 andRMB275.0 million in the previous quarter. The year-over-year increase was primarily attributable to increased personnel related expense and marketing expenses as with the year-over-year revenue growth and brand awareness improvement for both MINISO and TOP TOY. The quarter-over-quarter decrease was primarily attributable to rent deductions related to COVID-19 in certain international markets.

General and administrative expenses were RMB200.1 million (US\$31.0 million), representing an increase of 13.8% year over year and an increase of 18.1% quarter over quarter. Excluding share-based compensation expenses, general and administrative expenses were RMB188.2 million (US\$29.2 million), compared to RMB118.4 million in the same period of 2020 andRMB157.0 million in the previous quarter. The year-over-year increase was primarily due to 1) increases in personnel related expenses and IT expenses for the Company's new initiatives such as TOP TOY, and 2) the Company took necessary measures to reduce its general and administrative expenses to tackle the challenges caused by the pandemic during the same period of 2020, resulting in a low comparison base for these expenses. The quarter-over-quarter increase was primarily due to increased professional service fees.

Other net income was RMB21.9 million (US\$3.4 million), compared to RMB18.5 million in the same period of 2020 andRMB8.4 million in the previous quarter. The year-over-year increase was mainly due to increases in investment income. The quarter-over-quarter increase was primarily attributable to a larger foreign exchange loss in March quarter than in June quarter.

Operating profit was RMB187.8 million (US\$29.1 million), compared to a loss ofRMB29.7 million in the same period of 2020 and a profit of RMB161.1 million in the previous quarter.

Profit from continuing operations was RMB111.2 million (US\$17.2 million), compared to a loss ofRMB74.8 million in the same period of 2020 and a profit of RMB115.0 million in the previous quarter.

Adjusted net profit^[5], which represents net profit excluding (i) fair value changes of paid-in capital subject to redemption and other preferential rights or redeemable shares with other preferential rights, (ii) loss from discontinued operations, net of tax, (iii) equity-settled share-based payment expenses, (iv) employee compensation expenses related to non-forfeitable dividends related to unvested restricted shares, and (v) impairment loss on non-current assets, was RMB145.1 million (US\$22.5 million), representing an increase of 241.7% year over year and a decrease of 2.6% quarter over quarter.

MINISO reported **basic and diluted earnings from continuing operations per American Depositary Share ("ADS")** of RMB0.380 (US\$0.06) and RMB0.376 (US\$0.06) in June quarter, respectively, compared to a loss ofRMB0.36 each in the same period of 2020 and a profit of RMB0.40 each in the previous quarter. Each ADS represents four of the Company's Class A ordinary shares.

^[5] See the sections titled "Non-IFRS Financial Measure" and "Reconciliation of Non-IFRS Financial Measure" in this press release for more information about adjusted net profit.

Adjusted basic and diluted earnings per ADS were both RMB0.48 (US\$0.07) in June quarter, compared to adjusted basic and diluted earnings per ADS of RMB0.16 in the same period of 2020 and adjusted basic and diluted earnings per ADS ofRMB0.52 in the previous quarter.

As of June 30, 2021, the combined balance of the Company's cash, cash equivalents, restricted cash and other investments amounted to RMB6,878.3 million (US\$1,065.3 million), compared to RMB2,861.0 million as of June 30, 2020.

Fiscal Year 2021 Financial Results

Revenue was RMB9,071.7 million (US\$1,405.0 million), representing an increase of 1.0% year over year.

Revenue generated from the Company's domestic operations wasRMB7,291.2 million (US\$1,129.3 million), increasing by 20.6% year over year. Revenue generated from domestic operations of the MINISO brand was RMB6,969.7 million (US\$1,079.5 million), increasing by 20.4% year over year.

Revenue generated from the Company's international operations wasRMB1,780.4 million (US\$275.8 million), decreasing by 39.3% year over year.

Cost of sales was RMB6,641.0 million (US\$1,028.6 million), representing an increase of 6.3% year over year.

Gross profit was RMB2,430.7 million (US\$376.5 million), compared to RMB2,732.5 million in fiscal year 2020.

Gross margin was 26.8%, compared to 30.4% in fiscal year 2020. The year-over-year decrease in gross margin was primarily due to a decrease in revenue contribution from the Company's international operations, which has a higher gross margin than the Company's domestic operations. International operations contributed 19.6% of the Company's total revenue in fiscal year 2021, compared to 32.7% in fiscal year 2020.

Other income was RMB52.1 million (US\$8.1 million), compared to RMB37.2 million in fiscal year 2020.

Selling and distribution expenses were RMB1,206.8 million (US\$186.9 million), compared to RMB1,190.5 million in fiscal year 2020. Excluding share-based compensation expenses, selling and distribution expenses were RMB1,075.6 million (US\$166.6 million), compared to RMB1,062.7 million in fiscal year 2020.

General and administrative expenses were RMB810.8 million (US\$125.6 million), compared to RMB796.4 million in fiscal year 2020. Excluding share-based compensation expenses, general and administrative expenses were RMB660.7 million (US\$102.3 million), compared to RMB559.8 million in fiscal year 2020.

Other net loss was RMB40.4 million (US\$6.3 million), compared to an income of RMB46.0 million in fiscal year 2020. Other net loss in fiscal year 2021 was mainly attributable to foreign exchange losses, which was in line with the appreciation of the Renminbi against the U.S. dollar in the period.

Operating profit was RMB401.0 million (US\$62.1 million), compared to RMB766.6 million in fiscal year 2020.

Loss from continuing operations was RMB1,429.4 million (US\$221.4 million), compared to RMB130.1 million in the prior fiscal year. The fluctuation in loss from continuing operations was mainly due to fair value changes of redeemable shares with other preferential rights, which was a loss of RMB680.0 million in fiscal year 2020, compared to a loss of RMB1,625.3 million in fiscal year 2021.

Adjusted net profit^[6], which represents net profit excluding (i) fair value changes of paid-in capital subject to redemption and other preferential rights or redeemable shares with other preferential rights, (ii) loss from discontinued operations, net of tax, (iii) equity-settled share-based payment expenses, (iv) employee compensation expenses related to non-forfeitable dividends related to unvested restricted shares, and (v) impairment loss on non-current assets, was RMB480.1 million (US\$74.4 million) in fiscal year 2021, compared to RMB970.8 million in the prior fiscal year.

^[6] See the sections titled "Non-IFRS Financial Measure" and "Reconciliation of Non-IFRS Financial Measure" in this press release for more information about adjusted net profit.

Basic and diluted loss from continuing operations per American Depositary Share ("ADS") were both RMB4.72 (US\$0.73) in fiscal year 2021, compared to RMB0.48 in fiscal year 2020. Each ADS represents four of the Company's Class A ordinary shares.

Adjusted basic and diluted earnings per ADS were both RMB1.68 (US\$0.26) in fiscal year 2021, compared to RMB3.72 in fiscal year 2020.

Business Outlook

For the first quarter of fiscal year 2022 ended September 30, 2021, the Company currently estimates its revenue to be between RMB2,450 million and RMB2,650 million, representing an increase of 18.2% to 27.9% year over year. This estimate represents management's current and preliminary views on the market and operational conditions as of the date of this press release, which does not factor in any of the potential future impacts caused by the COVID-19 pandemic and is subject to change.

Exchange Rate

The U.S. dollar (US\$) amounts disclosed in this press release, except for those transaction amounts that were actually settled in U.S. dollars, are presented solely for the convenience of the readers. The conversion of Renminbi (RMB) into US\$ in this press release is based on the exchange rate set forth in the H.10 statistical release of the Board of Governors of the Federal Reserve System as of June 30, 2021, which was RMB6.4566 to US\$1.0000. The percentages stated in this press release are calculated based on the RMB amounts.

Non-IFRS Financial Measure

In evaluating the business, MINISO considers and uses adjusted net profit as a supplemental measure to review and assess its operating performance. The presentation of this non-IFRS financial measure is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with IFRS. MINISO defines adjusted net profit as profit/(loss) excluding (i) fair value changes of paid-in capital subject to redemption and other preferential rights or redeemable shares with other preferential rights, (ii) loss from discontinued operations, net of tax, (iii) equity-settled share-based payment expenses, (iv) employee compensation expenses related to non-forfeitable dividends related to unvested restricted shares, and (v) impairment loss on non-current assets.

MINISO presents adjusted net profit because it is used by the management to evaluate its operating performance and formulate business plans. Adjusted net profit enables the management to assess its operating results without considering the impacts of the aforementioned non-cash and other adjustment items that MINISO does not consider to be indicative of its operating performance in the future. Accordingly, MINISO believes that the use of this non-IFRS financial measure provides useful information to investors and others in understanding and evaluating its operating results in the same manner as the management and board of directors.

This non-IFRS financial measure is not defined under IFRS and is not presented in accordance with IFRS. The non-IFRS financial measure has limitations as an analytical tool. One of the key limitations of using adjusted net profit is that it does not reflect all items of income and expense that affect MINISO's operations. Further, this non-IFRS measure may differ from the non-IFRS information used by other companies, including peer companies, and therefore its comparability may be limited.

The non-IFRS financial measure should not be considered in isolation or construed as an alternative to profit/(loss) or any other measure of performance or as an indicator of MINISO's operating performance. Investors are encouraged to review MINISO's historical non-IFRS financial measure in light of the most directly comparable IFRS measure, as shown below. The non-IFRS financial measure presented here may not be comparable to similarly titled measure presented by other companies. Other companies may calculate similarly titled measures differently, limiting the usefulness of such measures when analyzing MINISO's data comparatively. MINISO encourages you to review its financial information in its entirety and not rely on a single financial measure.

For more information on the non-IFRS financial measure, please see the table captioned "Reconciliation of Non-IFRS Financial Measure" set forth at the end of this press release.
