Mr. Guofu Ye, Founder, Chairman, and Chief Executive Officer of MINISO, commented, "We delivered a strong start to calendar year 2023 with the best March quarter performance in our history, shaking off three years of uncertainty caused by pandemic. We are pleased to see our domestic operations delivered a well-rounded and encouraging quarterly performance, while our overseas operations also moved further along its path of recovery. As a result, our revenues grew to over RMB2.9 billion, an increase of 26% year-over-year. Our margin profile continued to beat expectations, adjusted net profit margin expanded to 16.4%, an 11.7 percentage point increase compared to same period last year, and adjusted net profit grew to RMB483 million, an increase of 336% year-over-year. Both figures represent new all-time highs for MINISO."

"MINISO's China business has rebounded strongly in the past few months, as reflected by soaring foot traffic and transaction value in our domestic stores. As our retail partners in China regained confidence and adopted a more bullish business outlook during the quarter, our pace of store openings accelerated. We opened 58 new stores in the March quarter on a net basis, double the figure from the same period of last year. Now, we are confident that we will be able to exceed our goal of opening 250-350 stores in China during calendar year 2023. In overseas markets, our efforts to optimize product design and selection and enhance the in-store experience are also yielding solid results. Total overseas revenue increased by about 55% year-on-year to RMB800 million. The performance in the U.S. was particularly outstanding, as it became our single largest overseas market by revenue for two consecutive quarters. 2023 marks MINISO's tenth anniversary, and it is also the beginning of the next stage of our journey, as we execute on our vision to become a global super-brand." Mr. Ye continued.

Notes:

(2) "MINISO stores" are any of the offline stores operated under the "MINISO" brand name, including those directly operated by the Company, and those operated by third parties under the MINISO Retail Partner model and the distributor model.

(3) "TOP TOY stores" are any of the offline stores operated under the "TOP TOY" brand name, including those directly operated by the Company, and those operated by third parties under the MINISO Retail Partner model.

Mr. Eason Jingjing Zhang, Chief Financial Officer and Vice President of MINISO, commented, "For the March quarter, our gross profit margin reached 39.3%, over 900 basis points higher than that in the same period of 2022, thanks to our solid execution of MINISO's brand upgrade and the strong performance of our overseas business."

"Looking forward into the June quarter, we expect our sales will continue to grow strongly on a year-over-year basis, driven by better store-level performance and store network expansion, while our margin profile will also continue to improve strongly on a year-over-year basis. Despite various challenges raised by uncertainties of external environment, we will remain focused on our long-term strategic goals: delivering on our globalization strategy, bolstering the strength of our product offerings and optimizing our store network, we will also continue to carefully manage cost and capital allocation as we focus on consistently delivering solid profits and healthy cash flow." Mr. Zhang concluded.

Recent Developments

Operational Update

According to the Company's preliminary estimates, its major operations achieved the following updates:

April 2023: GMV of MINISO's offline stores in China increased by around 80% year over year, and average GMV per MINISO store increased by around 50%, excluding the effect of temporary store closures during the same period of 2022. Average GMV per MINISO store in April 2023 in China represented around 85% of the level from the same period in 2019, representing a solid sequential improvement from the previous two months. GMV of MINISO's overseas business increased by around 45%.

Labor Day Holiday: GMV of MINISO's offline stores in China increased by around 75% year over year, and average GMV per MINISO store increased by around 45%. Average GMV per MINISO store during the Labor Day Holiday in China recovered to a comparable level of the same period in 2019.

Inclusion of the Company's shares in the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect Programs

Effective from March 13, 2023, ordinary shares of the Company had been included in the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect programs while the Company had also been selected and included as a constituent stock of six indexes by Hang Seng Indexes Company Limited.

Resignation of Executive Director

The board of directors (the "Board") announces that Mr. Minxin Li has tendered resignation from his position as an executive director of the Company due to the reason of his age so that he could focus on his role as the Company's executive vice president. The Board approved his resignation as an executive director of the Company with immediate effect on May 16, 2023.

Mr. Li will continue to serve as the Company's executive vice president. Mr. Li confirmed that his resignation is not due to any disagreement with the Board or the Company on any matter relating to its operations, policies or practices and there is no matter in respect of his resignation that needs to be brought to the attention of the shareholders of the Company.

After Mr. Li's resignation as an executive director, the Board now consists of three independent non-executive directors and one executive director. The Company believes that with the increased percentage of independent non-executive directors in the Board, the new board composition would be constructive to a better corporate governance.

The Company would like to thank Mr. Li for his contributions as an executive director of the Company, noting that through his efforts, he has aided in the building of a strong corporate board and management team.

Establishment of ESG Leadership Group

To better implement and manage environmental, social and governance ("ESG") matters, the Company established an ESG leadership group to assist the audit committee of the Board (the "Audit Committee") in taking charge of its responsibilities in relation to ESG matters in accordance with the provisions of the Audit Committee Charter. The ESG leadership group will report regularly to the Audit Committee and the Board on its activities and any significant ESG issues that arise, develop and recommend to the Audit Committee and the Board policies, procedures, and practices in relation to ESG matters, and review and assess the Company's ESG performance and make recommendations to the Audit Committee and the Board for improvement.

Unaudited Financial Results for the Third Quarter of Fiscal Year 2023 ended March 31, 2023

Revenue was RMB2,954.1 million (US\$430.2 million), representing an increase of 26.2% year over year, primarily driven by a 18.1% year-over-year increase of revenue from China, and a 54.6% year-over-year increase of revenue from overseas markets.

Revenue from China was RMB2,153.2 million (US\$313.5 million), 18.1% higher than RMB1,823.0 million in the same period of 2022. The year-over-year increase was primarily driven by (i) an increase of 25.3% in revenue from MINISO's offline stores, which was the result of a 5.4% year-over-year increase in average store count and a year-over-year growth of 18.9% in average revenue per MINISO store in China, and (ii) an increase of 24.0% in revenue from TOP TOY, which was the result of a 28.7% year-over-year increase in average store count and a year-over-year decrease of 3.7% in average revenue per TOP TOY store, and (iii) partially offset by a year-over-year decrease of 26.9% in revenue from other sales channels. For more information on the composition and year-over-year change of revenue, please refer to the "Unaudited additional information" in this press release.

Revenue from overseas markets was RMB800.9 million (US\$116.6 million), representing an increase of 54.6% year-over-year. The increase was primarily due to a year-over-year increase of 11.9% in average store count and a year-over-year growth of 38.1% in average revenue per MINISO store in overseas markets.

Revenue from overseas markets contributed 27.1% of our total revenue in the March quarter, five percentage points higher than the 22.1% contribution in the same period of 2022.

Cost of sales was RMB1,792.4 million (US\$261.0 million), representing an increase of 9.7% year over year.

Gross profit was RMB1,161.7 million (US\$169.2 million), representing an increase of 64.4% year over year.

Gross margin was 39.3%, compared to 30.2% in the same period of 2022. The year-over-year increase was primarily attributable to (i) higher gross margin contributed by newly launched products in relation to our execution of strategic brand upgrade of MINISO in China, and the cost-saving measures the Company adopted to reduce costs of certain products, (ii) the increase in revenue contribution from MINISO brand's international operations, which typically have higher gross margin than domestic operations, from 22.1% in the same period of 2022 to 27.1% in this quarter, and (iii) higher gross margin of TOP TOY due to a product mix shift to more profitable exclusive products.

Other income was RMB0.8 million (US\$0.1 million), compared to RMB2.3 million in the same period of 2022.

Selling and distribution expenses were RMB439.0 million (US\$63.9 million), representing an increase of 21.3% year over year. Excluding share-based compensation expenses, selling and distribution expenses were RMB431.5 million (US\$62.8 million), representing an increase of 22.8% year over year. The year-over-year increase was mainly attributable to (i) increased licensing expenses in relation to our IP products, (ii) increased personnel-related expenses and logistics expenses in relation to the growth of our business, and to a lesser extent, (iii) increased promotion and advertising expenses, mainly in connection with our strategic brand upgrade of MINISO in China.

General and administrative expenses were RMB155.2 million (US\$22.6 million), representing a decrease of 21.9% year over year. Excluding share-based compensation expenses, general and administrative expenses were RMB150.6 million (US\$21.9 million), representing a decrease of 21.2% year over year. The year-over-year decrease was primarily due to (i) decreased personnel-related expenses in relation to our cost control measures among our corporate crew, and (ii) decreased depreciation and amortization expenses due to the capitalization of the depreciation of land use right in construction cost of our headquarters building.

Other net income was RMB3.3 million (US\$0.5 million), compared to RMB0.5 million in the same period of 2022. Other net income mainly consists of net foreign exchange loss, investment income from wealth management products and others. The year-over-year increase was mainly attributable to an increase in investment income and a decrease in other losses.

Operating profit was RMB575.9 million (US\$83.9 million), representing an increase of 308.5% year over year.

Net finance income was RMB25.1 million (US\$3.7 million), representing an increase of 444.9% year over year mainly due to an increase in interest income from bank deposits.

Profit for the period was RMB470.9 million (US\$68.6 million), representing an increase of 408.2% year over year.

Adjusted net profit⁽¹⁾, which represents profit for the period excluding equity-settled share-based payment expenses, was RMB483.0 million (US\$70.3 million), representing an increase of 336.3% year over year.

Adjusted net margin⁽¹⁾ was 16.4%, compared to 4.7% in the same period of 2022.

Adjusted EBITDA⁽¹⁾ was RMB706.4 million (US\$102.9 million), representing an increase of 164.3% year over year.

Adjusted EBITDA margin⁽¹⁾ was 23.9%, compared to 11.4% in the same period of 2022 and 23.7% in the previous quarter.

Basic and diluted earnings per American Depositary Share ("ADS") were both RMB1.48 (US\$0.22) in this quarter, representing an increase of 362.5% year-over-year from RMB0.32 in the same period of 2022. Each ADS represents four of the Company's ordinary shares.

Adjusted basic and diluted earnings per ADS⁽¹⁾ were both RMB1.52 (US\$0.22) in this quarter, representing an increase of

322.2% year-over-year from RMB0.36 in the same period of 2022.

As of March 31, 2023, the combined balance of the Company's cash, cash equivalents, restricted cash, term deposits, and other investments amounted to RMB7,089.1 million (US\$1,032.3 million), compared to RMB6,160.4 million and RMB5,828.3 million as of December 31, 2022 and June 30, 2022, respectively.

For more information, please visit <https://ir.miniso.com/>.

Exchange Rate

The U.S. dollar (US\$) amounts disclosed in this press release, except for those transaction amounts that were actually settled in U.S. dollars, are presented solely for the convenience of the readers. The conversion of Renminbi (RMB) into US\$ in this press release is based on the exchange rate set forth in the H.10 statistical release of the Board of Governors of the Federal Reserve System as of March 31, 2023, which was RMB6.8676 to US\$1.0000. The percentages stated in this press release are calculated based on the RMB amounts.

Non-IFRS Financial Measures

In evaluating the business, MINISO considers and uses adjusted net profit, adjusted net margin, adjusted EBITDA, adjusted EBITDA margin, adjusted basic and diluted net earnings per share and adjusted basic and diluted net earnings per ADS as supplemental measures to review and assess its operating performance. The presentation of these non-IFRS financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with IFRS. MINISO defines adjusted net profit as profit for the period excluding equity-settled share-based payment expenses. MINISO calculates adjusted net margin by dividing adjusted net profit by revenue for the same period. MINISO defines adjusted EBITDA as adjusted net profit plus depreciation and amortization, finance costs and income tax expense. Adjusted EBITDA margin is computed by dividing adjusted EBITDA by revenue for the period. MINISO computes adjusted basic and diluted net earnings per ADS by dividing adjusted net profit attributable to the equity shareholders of the Company by the number of ADSs represented by the number of ordinary shares used in the basic and diluted earnings per share calculation on an IFRS basis. MINISO computes adjusted basic and diluted net earnings per share in the same way as it calculates adjusted basic and diluted net earnings per ADS, except that it uses the number of ordinary shares used in the basic and diluted earnings per share calculation on an IFRS basis as the denominator instead of the number of ADSs represented by these ordinary shares.

MINISO presents these non-IFRS financial measures because they are used by the management to evaluate its operating

performance and formulate business plans. These non-IFRS financial measures enable the management to assess its operating results without considering the impacts of the aforementioned non-cash and other adjustment items that MINISO does not consider to be indicative of its operating performance in the future. Accordingly, MINISO believes that the use of these non-IFRS financial measures provides useful information to investors and others in understanding and evaluating its operating results in the same manner as the management and board of directors.

These non-IFRS financial measures are not defined under IFRS and are not presented in accordance with IFRS. These non-IFRS financial measures have limitations as analytical tools. One of the key limitations of using these non-IFRS financial measures is that they do not reflect all items of income and expense that affect MINISO's operations. Further, these non-IFRS financial measures may differ from the non-IFRS information used by other companies, including peer companies, and therefore their comparability may be limited.

These non-IFRS financial measures should not be considered in isolation or construed as alternatives to profit, net profit margin, basic and diluted earnings per share and basic and diluted earnings per ADS, as applicable, or any other measures of performance or as indicators of MINISO's operating performance. Investors are encouraged to review MINISO's historical non-IFRS financial measures in light of the most directly comparable IFRS measures, as shown below. The non-IFRS financial measures presented here may not be comparable to similarly titled measures presented by other companies. Other companies may calculate similarly titled measures differently, limiting the usefulness of such measures when analyzing MINISO's data comparatively. MINISO encourages you to review its financial information in its entirety and not rely on a single financial measure.

For more information on the non-IFRS financial measures, please see the table captioned "Reconciliation of Non-IFRS Financial Measures" set forth at the end of this press release.
